

Archaeological Data Recovery

Lunch & Learn

April 4, 2025

NAEP-SC is excited to have Mechelle Kerns from Terracon Consultants Inc. as our featured speaker. Please join us for lunch and learning as Mechelle shares the results of Terracon's archaeological data recovery at sites 38FL116, 38FL506, and 38FL513 in Florence County, South Carolina, on behalf of Dominion Energy South Carolina (DESC).

TOPICS

- Review archaeological data recovered from sites in Florence County, SC.
- Over 7,300 artifacts were recovered, revealing evidence of prehistoric occupations from the Middle Archaic to Mississippian periods.
- Site 38FL116 showed the most intensive occupation with a high artifact density and diverse tool assemblage.
- Highlights include a Middle Archaic pit feature at 38FL116, primary use of metavolcanics from the Uwharrie Mountains, and a variety of lithic and ceramic artifacts.
