

# Remote Sensing, Drone Demo & GIS Lunch & Learn

## September 12, 2025

NAEP-SC is excited to have Patrick Bresnahan, Geographic Information Officer, with Richland County, as our featured speaker. Please join us for lunch and learning as Patrick shares about the use of remote sensing, GIS, and how drones can be incorporated into the environmental profession. He'll also be giving a live drone demonstration.

### TOPICS

- How to immediately leverage high-resolution drone data to evaluate, calculate, model, and monitor a wide range of projects.
- Geospatial applications that benefit from remote sensing data.
- How autonomous sensing technologies are becoming just another tool in a professional's toolbox.
- How these methods can be implemented in a short amount of time
- A demonstration drone data collection mission will conclude the session, weather permitting.

**WHEN & WHERE** (September 12)  
**11:45 am - 1:30 pm (Lunch provided)**

Michael Baker International\*  
700 Huger St.  
Columbia, SC 29201

*\*Space may be limited.*

### REGISTRATION

Register at [www.NAEP-SC.org](http://www.NAEP-SC.org)

**You must register by Friday, September 5, 2025**

### COSTS

NAEP-SC Members - \$15  
Non-members - \$30  
Students - Free

**A special thanks to our sponsors:**

#### Platinum

#### Gold

#### Silver

#### Bronze

Venue provided by: **Michael Baker International**
