Partnership Overview | Student Spotlight | Faculty Spotlight

National Association of Environmental Professionals and American Public University Partnership

The National Association of Environmental Professionals (NAEP) and American Public University (APU) have formed a partnership to further mutual interest regarding the availability and quality of higher education available to NAEP members. The degree and certificate programs at APU are distinguished from others in the industry because our faculty members are not just educators, but also real-world practitioners. Many hold leadership positions at the Environmental Protection Agency, Bureau of Land Management, The Nature Conservancy, and other key organizations around the globe.

This partnership offers NAEP members access to flexible and affordable online courses, certificates, and degree programs; with a variety of concentrations including *Environmental Sustainability*, *Environmental Planning*, and *Global Environmental Management*. Whether you currently work as an Environmental Project Manager, Policy Analyst, NAEP Project Manager, or other environmental position, this partnership provides access to quality education designed to help you meet your professional goals.
